

In accordance with the AGH Senate Resolution no. 57/2019 of 24 April 2019, students must enrol on the language course which is a continuation of **the language they took on their “matura” or other school-leaving examination**. We offer courses in English, French, Spanish, German and Russian on levels CEFR: **B1, B2, C1**.

We kindly remind you that if you are a student of:

- Faculty of Humanities (all Fields)
- Faculty of Geology, Geophysics and Environmental Protection (all Fields)
- New Technologies in Forensic Science (conducted by Faculty of Humanities, Faculty of Computer Science, Electronics and Telecommunications and Faculty of Material Science and Ceramics)

the regulations state that **the compulsory language of your course must be English and you can choose only English in your USOS registration**.

Students who took their school-leaving examination **in two languages** e.g. French and English can decide to take either French or English language course.

In order to register for your language course you should:

1. Register in USOS, confirming your enrolment:

**One available registration** = the language you chose for your school-leaving examination ([video here](#))

**Registration choice** = only for students who took their school-leaving examination in two languages ([video here](#))

2. Wait for information about your language group:

- for **English language** course: the date will be in your USOS timetable a week before the summer semester begins
- for **French, Spanish, German or Russian** language course: the course schedule will be determined during the organizational meeting with the group lecturer which will be held in the first days of the summer semester; you will be informed about the meeting via email

The course level **B1, B2, C1** will be determined **based on your “matura” or other school-leaving examination certificates**.

USOS registration is available between **21.01.2025** and **9.02 2025**.
